Description

As a Redmine user I would like to have an ability to display total Pending Effort on the issues list so I can group by Assignee and verify if Pending Effort per specific team member is not too high for him.

1. Use Case

Currently there is an possibility to summarize total Story Points in issues list however it's not important when grouping is done per Assignee. In such a case Pending Effort really matters.

1. Go to Issues
2. Expand Filter Options
3. Group results by Assignee
3. In Total select "Pending Effort"
4. The list is updated to display "Pending Effort" total near the assignee name

(see attached image for more details)
