Description

Hello,

It seems that the Advanced roadmap plugin 0.13.0 is ready (https://redmine.ociotec.com/versions/216) but it is not available in the "Files" category.

Also the link on: https://redmine.ociotec.com/projects/advanced-roadmap that is suppose to direct to lates files is not working.

The manual (https://redmine.ociotec.com/projects/advanced-roadmap/wiki/Advanced_roadmap_plugin_for_Redmine) also points into non existing page.

Should one be a patreon to get access to the latest version ?
