History

#1 - 2015-08-04 10:05 - Emilio González Montaña

- Target version deleted (Scrum v0.12.0)

#2 - 2015-08-20 22:52 - Emilio González Montaña

- Status changed from New to Rejected

- Sprint set to Product backlog

- Position changed from 68 to 13

This scenery is too complex from Scrum point of view, I mean I don't see the need to over complicate PBIs and subtasks with another level of subtasking.

The Sprint board only renders one level of tasks.
