<b>Description</b> I created a pt-BR.yml file on the /config/locale folder, but the texts are getting mixed between english and pt-BR. My user setting is set to english, but some labels are showing in pt-BR, sometimes i restart redmine and everything then is english for a while, but after a few hours i see a bunch of pt-BR words instead, while others are still english	
<p><b>Sprint:</b> <input type="text" value="Sprint 1"/></p> <p><b>Start date:</b> 07/13/2015 English (this is ok)</p> <p><b>Data Final:</b> 07/17/2015 Portuguese (this is not)</p>
