Description
Please provide Redmine 3.2 support. I know this great plugin from a lower Redmine version of one of our clients and told our it service to install it on Redmine 3.2, but there appears an error (500) nearly at all sites. so they uninstalled it. Now I am looking for an alternative plugin, but my favorit is yours.
When can I expect Redmine 3.2 compatibility?
Thank you!

- Category set to General

Yes sure. The plugin will be updated (if needed) shortly to support any recient Redmine version.

#2 - 2016-02-16 13:17 - Björn Mittmann

Thank you for that quick response. Redmine 3.2 - As soon as possible will be great :-)

- Status changed from New to Rejected

I've checked this plugin latest released version (v0.13.1) is compatible with Redmine 3.2.0-stable.

Provide more details (about plugin version + other plugins versions) & logs of the errors.

#4 - 2016-02-17 10:53 - Björn Mittmann

Ok, I try out latest version v0.13.2.

I donwloaded v0.13.0, because on https://www.redmine.org/plugins/scrum-plugin and https://redmine.ociotec.com/projects/redmine-plugin-scrum it is latest.

Thank you
