

Scrum - Defect #1257

Sprint link in calendar redirects to localhost

2016-11-29 13:25 - Bartosz Firyn

Status:	Resolved	Blocked: No Alone:
Priority:	Normal	
Category:	Calendar	
Target version:	Scrum v0.16.2	
Source:	Testing	
Detected on version:	Scrum v0.15.0	
Description		
Hi,		
I'm using 0.15.0 scrum plugin. My Redmine is running on a server on port 3000, but I can access it via nginx proxypass. The problem is that link to sprint in calendar points to localhost.		
My nginx settings:		
<pre>server { server_name myinternaldomain.com; location / { proxy_pass http://localhost:3000; proxy_redirect default; proxy_cookie_domain localhost myinternaldomain.com; } }</pre>		
All other Redmine links (including calendar ones) works well. Just sprint link is broken.

I cannot reproduce this, please go to plugin folder and open this file lib/scrum/calendars_controller_patch.rb, change this (at the end of the file):

```
sprints << { :name => sprint.name,
             :url => url_for(:controller => :sprints,
                             :action => :show,
                             :id => sprint.id),
             :day => sprint.send(date_field).day,
             :week => sprint.send(date_field).cweek,
             :start => start }
```

With this new code:

```
sprints << { :name => sprint.name,
             :url => url_for(sprint),
             :day => sprint.send(date_field).day,
             :week => sprint.send(date_field).cweek,
             :start => start }
```

If it works let me know and I will fix the sources.

#2 - 2016-12-08 18:58 - Bartosz Firyn

- File 2.png added
- File 0001-Fix-broken-sprint-link-in-calendar.patch added

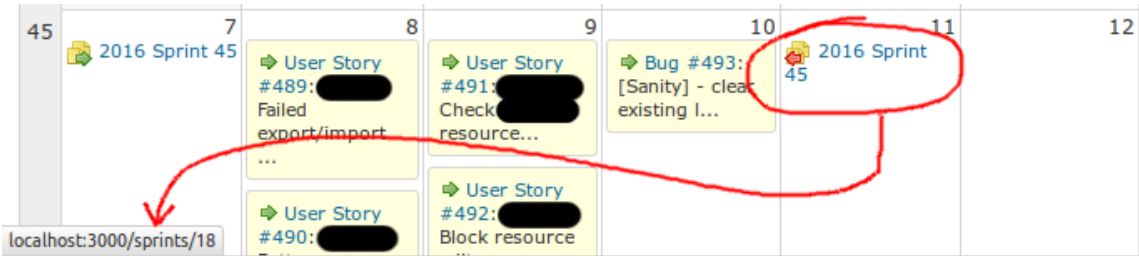

Hi Emilio,

Thank you for pointing me to the source code. The change you proposed is not working, but after reading more about function url_for(..):

I added :only_path option set to true and now it works well:

Versus how it was before:

Code:

```
url => url_for(:controller => :sprints,
               :action => :show,
               :id => sprint.id,
               :only_path => true),
```

Attached I'm sending patch file.

#3 - 2016-12-08 19:36 - Emilio González Montaña

- Target version set to Scrum v0.16.2
- Sprint set to Sprint 32

#4 - 2016-12-08 22:55 - Emilio González Montaña

- Status changed from In progress to Resolved
