

Scrum - User story #1288

As a scrum master, I want to Update Issues via Right Click

2017-01-16 11:06 - Ahmad Farahani

Status:	Rejected	
Priority:	Normal	
Category:	Sprint board	
Target version:		
Blocked:	No	Alone:
Description		
<p>There are some works I would like to do just on the sprint board which are not available now. E.g.:</p> <ul style="list-style-type: none">- Changing the assignee- Changing the status to one not included in the board columns (e.g., pauses)- Going directly to the issue edit page- Changing percent done- Watching the issue- etc. <p>All of them are available when you right click on an issue on the Issues page (screenshot attached).</p> <p>That would be great to show the same pop-up menu when you right click on an issue on the Sprint board page.</p>		

History

#1 - 2017-02-01 10:32 - Emilio González Montaña

- Status changed from New to Rejected

Right click was abandoned because I want the plugin to be responsive, on touch devices there is not a natural way to do right click, but you have a *pencil* icon with a pop-up window to edit all those fields.
