Scrum - Defect #1297

Sprint burndown SPs and Hours show wrong curve and data

2017-02-28 11:23 - Ivan Pevtsov

Status:	New		
Priority:	High		
Category:	Sprint burndown		
Target version:			
Source:	Customer	**Blocked:**	No
Detected on version:	Scrum v0.16.0	**Alone:**	

Description

Hi Emilio. Thanks for your great plugin first)

The issue that we face can bee seen on these pictures:
https://gyazo.com/dd5006a2ce2ac7ec9f963060c3e0807a
https://gyazo.com/9d4434922d5e0fc00ec4b2da92b857c7
https://gyazo.com/74ec013331b87f989208b754a8d5d6f8

The problem is that we have closed all the tasks and the pending time for all of them is 0, but the burdown chart (hours) shows 28 hours pending, while SPs shows 23 sps. It either calculates wrongfully or I don't get how its done. Would you please clarify or fix this? May be the reason of this is that we have moved some tasks out of the sprint after they have been created

Regards,
Ivan

History

#1 - 2017-03-01 13:16 - Emilio González Montaña

- Tracker changed from Feature to Defect

- Project changed from Advanced roadmap to Scrum

- Category changed from Issues to Sprint burndown

- Target version deleted (Advanced roadmap 0.10.2)

- Sprint set to Product backlog

- Source set to Customer

- Detected on version set to Scrum v0.16.0
