

Scrum - User story #1342

Values for Sprint field cannot be imported using CSV-Import

2017-04-18 15:34 - Björn Sander

Description		
During Import of issues for CSV (http://[domain]/issues/imports/new) it is not possible, to adress a specified sprint. "Sprint" does not seems to be an user defined field, thus preventing the importfilter from working with it. It would be nice, if one could import and assign values for "Sprint"
