

Scrum - Defect #1381

Scrum plugin doesn't work with redmine 3.4.x

2017-07-10 18:07 - Edouard B

Status: Resolved	
Priority: Normal	
Category: General	
Target version: Scrum v0.18.0	
Source: Development	Blocked: No
Detected on version: Scrum v0.16.2	Alone: No
Description	
The scrum plugin work but a lot of pages can't be loaded (error 500) and the log show :	
Started GET "/redmine/issues/4299" for x.x.x.x at 2017-07-10 14:30:01 +0200 Processing by IssuesController#show as HTML Parameters: {"id"=>"4299"} Current user: xxxxxx (id=1) Completed 500 Internal Server Error in 47ms (ActiveRecord: 0.0ms)

Subtasks:	
To do # 1392: Upgrade plugin	Resolved
To do # 1405: Spent time link on task post-its fails	Resolved
To do # 1407: Create and continue button doesn't work	Resolved
Related issues:	
Has duplicate Scrum - Defect #1393: Cannot save plugin settings	Rejected

History

#1 - 2017-07-14 17:03 - Angelinsky7 Angelinsky7

i don't know if this is the right answer but changing the file issue_query_patch.rb from

```
def issues_with_scrum(options = {})
  options[:include] ||= {}
  options[:include] << :sprint
  issues_without_scrum(options)
end
alias_method_chain :issues, :scrum

def issue_ids_with_scrum(options = {})
  options[:include] ||= {}
  options[:include] << :sprint
  issue_ids_without_scrum(options)
end
```

to

```
def issues_with_scrum(options = {})
  options[:include] ||= []
  options[:include] << :sprint
  issues_without_scrum(options)
end
alias_method_chain :issues, :scrum

def issue_ids_with_scrum(options = {})
```

```
options[:include] ||= []
options[:include] << :sprint
issue_ids_without_scrum(options)
end
```

seems to do the job... i dont know why it was working before the redmine new version because it seems that Hashes in ruby don't have the '<<' operator but....

#2 - 2017-07-14 17:56 - Angelinsky7 Angelinsky7

to add to the redmine corrections :
in lib\scrum\projects_helper_patch.rb we must change @line 17

```
index = tabs.index({:name => 'versions', :action => :manage_versions,
                  :partial => 'projects/settings/versions',
                  :label => :label_version_plural})
```

to

```
index = tabs.index({:name => 'versions', :action => :manage_versions,
                  :partial => 'projects/settings/versions',
                  :label => :label_version_plural,
                  :url => {:tab => 'versions',
                        :version_status => params[:version_status],
                        :version_name => params[:version_name]}})
```

#3 - 2017-07-18 02:11 - Emilio González Montaña

- Target version deleted (Scrum v0.17.0)

#4 - 2017-07-18 02:12 - Emilio González Montaña

- Status changed from New to In progress
- Target version set to Scrum v0.18.0

#5 - 2017-07-18 02:13 - Emilio González Montaña

- Category changed from Issues list & form to General

Plugin settings saving is also affected.

#6 - 2017-07-19 01:42 - Emilio González Montaña

- Blocked changed from No to Yes
- Alone changed from No to Yes

#7 - 2017-07-19 02:03 - Emilio González Montaña

- Sprint set to Sprint 35

Angelinsky7 thanks for the patches.

#8 - 2017-07-19 02:03 - Emilio González Montaña

- Blocked changed from Yes to No

#9 - 2017-07-19 02:04 - Emilio González Montaña

- Alone changed from Yes to No

#10 - 2017-07-19 02:51 - Emilio González Montaña

- Status changed from In progress to Resolved

#11 - 2017-07-29 11:50 - Emilio González Montaña

- Subject changed from Scrum plugin doesn't work with redmine 3.4.1.0 to Scrum plugin doesn't work with redmine 3.4.x

#12 - 2017-07-30 20:30 - Emilio González Montaña

- Status changed from Resolved to In progress

#13 - 2017-07-30 20:51 - Emilio González Montaña

- Status changed from In progress to Resolved

#14 - 2017-07-30 21:15 - Emilio González Montaña

- Status changed from Resolved to In progress

#15 - 2017-07-30 22:05 - Emilio González Montaña

- Status changed from In progress to Resolved

Hello Angelinsky7,

I cannot see any difference in the 2 code blocks that you posted. Since I do have the same error too I would really like to know what I need to change to make this work

Thanks in advance

Jürgen

PS: just to be clear: I was talking about the changes for the issue_query_patch.rb file.

#17 - 2017-09-06 09:10 - Jürgen Schreier

After applying the patches from above most of scrum plugin seems to be working. But I still get the following error 500 when requesting mypage:

```
Started GET "/my/page" for 212.18.30.153 at 2017-09-06 11:02:31 +0200
Processing by MyController#page as HTML
Current user: js (id=1)
Rendered my/blocks/_timelog.html.erb (2.1ms)
Rendered my/page.html.erb within layouts/base (35.7ms)
Completed 500 Internal Server Error in 72ms (ActiveRecord: 27.3ms)
```

ActionView::Template::Error (undefined method '<<' for {}):Hash

Did you mean? <):

```
10: <div id="my-page">
11: <% @groups.each do |group| >
12: <div id="list-<= group >" class="block-receiver">
13: <= render_blocks(@blocks[group], @user) >
14: </div>
15: < end %>
16: </div>
plugins/scrum/lib/scrum/issue_query_patch.rb:40:in `issues_with_scrum'
app/helpers/my_helper.rb:101:in `render_issuesassignedto_block'
app/helpers/my_helper.rb:64:in `render_block_content'
app/helpers/my_helper.rb:35:in `render_block'
app/helpers/my_helper.rb:27:in `block in render_blocks'
app/helpers/my_helper.rb:26:in `each'
app/helpers/my_helper.rb:26:in `render_blocks'
app/views/my/page.html.erb:13:in `block in app_views_my_page_html_erb_1176417024786038216_47278278691620'
app/views/my/page.html.erb:11:in `each'
app/views/my/page.html.erb:11:in `app_views_my_page_html_erb_1176417024786038216_47278278691620'
lib/redmine/sudo_mode.rb:63:in `sudo_mode'
```

line 40(+-) in issue_query_patch.rb file contains this:

```
def issues_with_scrum(options = {})
  options[:include] ||= {}
```

```
options[:include] << :sprint
  issues_without_scrum(options)
end
alias_method_chain :issues, :scrum
```

```
def issue_ids_with_scrum(options = {})
  options[:include] ||= {}
  options[:include] << :sprint
  issue_ids_without_scrum(options)
end
alias_method_chain :issue_ids, :scrum
```

#18 - 2017-09-20 16:12 - Angelinsky7 Angelinsky7

change with those :

```
def issues_with_scrum(options = {})
  options[:include] ||= []
  options[:include] << :sprint
  issues_without_scrum(options)
end
alias_method_chain :issues, :scrum
```

```
def issue_ids_with_scrum(options = {})
  options[:include] ||= []
  options[:include] << :sprint
  issue_ids_without_scrum(options)
end
alias_method_chain :issue_ids, :scrum
```

#19 - 2017-09-22 13:31 - Jürgen Schreier

@Angelinsky: Many thanks that did it. exchanging the {} to [] made it work.

Have a great weekend

Jürgen

#20 - 2017-09-28 04:35 - Luan Garrido

I have changed the code like Angelinsky7 Angelinsky7 said, but I still cant update plugin settings.

Right now I cant add any sprint taks or Product Backlog task.

This is my projects_helper_patch.rb file

O7R8M7.png

And that is my issue_query_patch.rb file

qIFxnW.png

Im using redmine version 3.4.2

Which kind of information can I share to be helped?

Thanks =)

#21 - 2017-09-28 19:45 - Emilio González Montaña

A new plugin version will be released in a few weeks, but if any of you want early access my Patreon web (for a 5\$ tier) offers full access to all my Redmine plugins GIT repositories.

#22 - 2017-10-16 21:11 - Emilio González Montaña

Released.

#23 - 2017-10-16 21:13 - Emilio González Montaña

- Has duplicate Defect #1393: Cannot save plugin settings added
