Scrum - User story #1505

Backlog PBI : show description in a popup on issue link title mouseover

2017-11-10 17:59 - Redmine Smile

Category:	Post-its & styling		
Target version:			
Blocked:	No	**Alone:**	No

Description

To avoid to click on the edit PBI button to see the description,
when the mouse cursor is on the PBI title (not the issue ID) a popup could display the Issue description.

for that : in app/views/post_its/product_backlog/_pbi.html.erb, we just have to add :description => true :

```
<tr>
  <td class="content" colspan="2">
    <%= link_to_issue(pbi, :tracker => false, :project => project != pbi.project, :description
=> true) %>
  </td>
</tr>
```

Associated revisions

How this change works? I've tried to mouse over the issue subject in post-its (PBI's & tasks) in Sprint board, but nothing pops up...

#3 - 2017-12-23 20:03 - Emilio González Montaña

Redmine code link_to_issue doesn't have a :description option, so maybe you've a plugin that adds this option... let me known.

#4 - 2017-12-26 10:27 - Redmine Smile

You're right, this option was added in our pluggin.

The problem it that it's a pretty obtrusive modification.
