History

#1 - 2018-01-04 10:55 - Redmine Smile

This issue can be renamed : **Backlog : optimize pbis sorting**

#2 - 2018-01-05 15:53 - Redmine Smile

- Preload needed relations in pbis ActiveRecord Relation (for sort and show actions)
- Do not modify Pbis that don't change of position
- Do not check dependencies on issues that don't change of position (the ones below the issues not affected by the move)

- A problem remains :
If there are holes in position indices, and some dependencies exist, no sort is possible.
