

Scrum - User story #1530

Scrum Board : do not throw an exception if new statut is not allowed

2018-01-08 14:24 - Redmine Smile

Status:	New		
Priority:	Normal		
Category:	Sprint board		
Target version:			
Blocked:	No	Alone:	No
Description			
Throwing an exception gives the information that something bad happened on the server.			
This is not the case, it's only a situation that needs to display a popup to the user, and refreshing the display to the state previous to the Task move.			
Every thing is available for that, we just have to replace the exception raised by an instance variable to be used by the view to manage the error.			

Associated revisions

Revision 5c3dbc64 - 2018-01-08 15:19 - Jérôme BATAILLE

Only change status if allowed, exception -> error message

```
#1530 Scrum Board : do not throw an exception if new statut is not allowed
modifié :      app/controllers/sprints_controller.rb
modifié :      app/views/scrum/update_task.js.erb
nouveau fichier : config/locales/en-GB.yml
modifié :      config/locales/en.yml
modifié :      config/locales/es.yml
modifié :      config/locales/fr.yml
modifié :      config/locales/zh.yml
```

Revision e4a9686a - 2018-01-10 11:01 - Lxc

keep the en default translation

```
[#1530] Scrum Board : do not throw an exception if new statut is not allowed
modifié :      config/locales/zh.yml
```

Revision 4ffb7c39 - 2018-01-10 15:56 - Lxc

do not duplicate the en.yml : no specific change
the en locales will be used anyway

```
[#1530] Scrum Board : do not throw an exception if new statut is not allowed
supprimé :     config/locales/en-GB.yml
```

Revision 1ff94f06 - 2018-01-10 16:52 - Lxc

Merge branch 'merge_request_1528_french_translations_update' into
merge_request_1530_scrum_board_do_not_throw_an_exception_if_new_statut_is_not_allowed

```
[#1530] Scrum Board : do not throw an exception if new statut is not allowed
modifié :      config/locales/fr.yml
```

Revision ad77d703 - 2018-01-10 20:14 - Emilio González Montaña

Merge branch 'merge_request_1530_scrum_board_do_not_throw_an_exception_if_new_statut_is_not_allowed' into 'master'

```
[#1530] Scrum Board : new status not allowed, replace exception by error message (instance variable) + translation
```
