#### Description

When I view the roadmap the individual issues are blank (or rather they are white font on white making them invisible).

Where is the font colour set?

View source shows the following (note color="" on the font attribute):-

```
<font color=""><strike>
  <a class="issue tracker-2 status-5 priority-2 priority-default closed parent created-by-me" href="/issues/1958">New Feature #1958</a>: AD Integration for users and groups
</strike></font>
```
