Status:	Resolved		
Priority:	High		
Category:	Sprint stats		
Target version:	Scrum v0.19.0		
Source:	Development		
Detected on version:	Scrum v0.19.0	Blocked:	No
		Alone:	No
Description Initially, tasks where add to a project with an empty child project showing expect hours spent time in the Done effort row. Then when one of the tasks was moved to the child project, the same task Done effort hours was subtracted from row. Please review the attached pictures and take special note of the red eclipse marks in the attached pictures below. Thanks

The expected behavior is that the child project tasks spent time should be added accordingly to the Done effort row.

#2 - 2019-03-05 17:53 - Emilio González Montaña

- Target version set to Scrum v0.19.0

- Status changed from New to In progress

Pending of testing for closure.
