Description			
Hello,			
It seems that the Advanced roadmap plugin 0.13.0 is ready (https://redmine.ociotec.com/versions/216) but it is not available in the "Files" category.			
Also the link on: https://redmine.ociotec.com/projects/advanced-roadmap that is suppose to direct to latest files is not working.			
The manual (https://redmine.ociotec.com/projects/advanced-roadmap/wiki/Advanced_roadmap_plugin_for_Redmine) also points into non existing page.			
Should one be a patron to get access to the latest version ?
