Description
Thank you for the great plugin. I will be upgrading to Remine 5.0. Can the Scrum plugin work with Redmine 5.0? If not, I hope you to support version 5.0

Thanks Emilio for your work!.

I have successfully tested Scrum 0.23.0 version in a Redmine dockerized environment without any other plugin installed:

```
Redmine version              5.0.1.stable
  Ruby version               3.1.2-p20 (2022-04-12) [x86_64-linux]
  Rails version              6.1.6
  Environment                production
  Database adapter           Mysql2
```

I will now check other plugins compatibility.

The only bug I have detected (and I think it is not related to Redmine 5), is that when a PBI or a task is assigned to a group, the sprint board is not showed and an error 500 is returned.
