Description			
Hi Emilio,			
When working with the filters "Sprint:", "Filter by assignee:", resp. "Product backlog:" in the Sprint resp. Backlog view, a page refresh resets them back to their default values.			
It might be preferred by most users for the filters to persist between page refreshes.			
Such a behavior would be more in line with the "Custom queries" in die Issues view of the standard Redmine experience.			
Thanks for considering this request			
Tristan
