Description

It gives me an error if is try to sort the search result by sprint, like this:

The screenshot shows the Redmine interface for configuring columns and displaying a table. In the 'Columns' section, 'Tracker' and 'Sprint' are selected in the 'Selected Columns' list. Below, there are checkboxes for 'Show' and 'Totals' with various options like 'Description', 'Last notes', 'Átvételi követelmények', 'Estimated time', 'Pending effort', and 'Spent time'. At the bottom, there are 'APPLY', 'CLEAR', and 'SAVE' buttons.

The table below shows a list of issues with columns for checkboxes, issue ID, description, tracker, and sprint. A green arrow points to the 'SPRINT' column header, indicating the sorting attempt.

<input type="checkbox"/>	#		TRACKER	SPRINT	
<input type="checkbox"/>	#400383	Task	Task	1 sprint	...
<input type="checkbox"/>	#400382	Task	Task	1 sprint	...
<input type="checkbox"/>	#400381	Task	Task	1 sprint	...
<input type="checkbox"/>	#400380	Task	Task	1 sprint	...
<input type="checkbox"/>	#400379	User Story	User Story	1 sprint	...

The error:

An error occurred while executing the query and has been logged. Please report this error to your Redmine administrator.
