

Quick edit windows button should be Submit instead of Edit

Status:	Resolved

On /issues/XXX page is the button for saving changes named "Submit"

But in the quick edit window is it called Edit which is a bit confusing.

A screenshot of a dialog box with a white background and a thin grey border. The dialog box is positioned over a dark grey background. Inside the dialog box, there is a large, empty rectangular area with a light blue-grey fill. Below this area, there are two buttons: 'Edit' and 'Cancel', both with rounded corners and a thin grey border. The 'Edit' button is on the left and the 'Cancel' button is on the right.
