Description

When a new field is added, and there was a doc with doc elements, when you edit the previous doc elements these ones don't update the new fields values, but the old ones are ok. With new doc elements, all the fields (old an new) are updated.

Associated revisions

Revision 688 - 2009-09-07 12:35 - Emilio González Montaña

#170

- Fix new fields aren't updated in existent doc elements.
