#256

- Fixed error in milestones controller with custom fields helper.

History

#1 - 2010-08-18 11:20 - Andrew Rudenko

I've the same error,

to fix, just add two lines helper :custom_fields and include CustomFieldsHelper after before_filters and before def show method into vendor/plugins/advanced_roadmap/app/controllers/milestones_controller.rb

```
class MilestonesController < ApplicationController
```

```
  menu_item :roadmap
  before_filter :find_project, :only => [:add]
  before_filter :find_milestone, :except => [:add]
  before_filter :authorize, :except => [:show]
```

```
  helper :custom_fields
  include CustomFieldsHelper
```

```
  def show
  end
```

```
[...]
```

#2 - 2010-08-23 15:35 - Emilio González Montaña

- Due date set to 2010-08-23
- Status changed from New to Resolved
- Assignee set to Emilio González Montaña
- Target version set to Advanced roadmap 0.1.0
- % Done changed from 0 to 100

Thanks again Andrew.
