I get the same problem? someone help me!
NoMethodError (undefined method `count' for {57=>57}:Hash):
vendor/plugins/advanced_roadmap/app/controllers/milestones_controller.rb:22:in `show'

#2 - 2011-01-16 22:08 - Emilio González Montaña

- Target version set to Advanced roadmap 0.2.1

#3 - 2011-01-16 22:18 - Emilio González Montaña

- Tracker changed from Feature to Error
- Category set to Milestones
- Status changed from New to In progress
- Assignee set to Emilio González Montaña
- Priority changed from Urgent to Normal
- Start date changed from 2010-12-10 to 2011-01-16

#4 - 2011-01-16 22:29 - Emilio González Montaña

- Due date set to 2011-01-16
- Status changed from In progress to Resolved
- % Done changed from 0 to 100

Really strange case... Hash class doesn't have count method, I've replaced by length method.

The strange thing is that only you two are having this error, by a strange reason (I don't know it) in other Rails installations it seems that Hash class isn't complaning at all when I call the count method over a Hash object, I've checked the Hash API documentation and the count method isn't present, but it works! (almost in any installation).

hello,

I sloved this problem from <http://www.ruby-forum.com/topic/162578>.

you can change the 'count' into 'size',restart your redmine,and the plugin working fine.

```
'vendor\plugins\advanced_roadmap\app\controllers\milestones_controller.rb'
```

```
--- @more_than_one_project = (projects.count > 1)
```

```
+++ @more_than_one_project = (projects.size > 1)
```

Good luck!
