

Advanced roadmap - Error #527

Comment history only shown to Administrator (on redmine v1.2.0)

2011-06-30 09:29 - Hyun Park

Status:	New	Start date:	2011-06-30
Priority:	Urgent	Due date:	
Assignee:	Emilio González Montaña	% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:		Redmine version:	
Source:	Development		
Detected on version:	Advanced roadmap 0.5.1		

Description

The changes in an issue, such as status, assignee, data and so on, are properly listed in the History section but comments are not shown at all.

Only administrators can see comment history. Even managers can't without mentioning developer and reporter roles.

I think the bug is in the "view estimated hours" right having far-reaching consequences. I experienced the same problem on v1.1.2, and worked around it by granting that right to all users - otherwise any bug filed by an administrator has all its comments hidden from non-administrators.

I suspect that the check for "does the current user have the right to view estimated hours?" is being applied too early in the comment display code, so is applying to an entire comment rather than only relevant parts of it.

Without a shred of irony: I'm guessing you're an admin, since I can't see my own comments on this bug ;)
