

## Scrum - Defect #927

### Sprint burndown chart pending effort is using done effort data

2014-12-22 04:05 - an li

<b>Status:</b> New	
<b>Priority:</b> High	
<b>Category:</b>	
<b>Target version:</b>	
<b>Source:</b> Development	<b>Blocked:</b>
<b>Detected on version:</b> Scrum v0.7.1	<b>Alone:</b>
<b>Description</b>	
I test like below:	
If not editing effort in project setting-sprint, even if pending effort for each issue in the sprint is not blank, the burn down chart doesn't have graph.	
If ending effort in project setting-sprint, even if pending effort for each issue in the sprint is blank, the burn down chart shows graph.	
I checked that sprint burn down chart has wrong usage for the pending effort, I think it shall summarize all pending effort for each day to draw burn down chart, not using done effort.	

#### History

##### #1 - 2015-02-11 11:15 - Peter Kossek

- File defect#927\_sprint\_board.JPG added
- File defect#927\_sprint\_burndown.JPG added
- File defect#927\_sprint\_edit\_effort.JPG added

Same in version [Scrum v0.8.0](#)

See images for details.

##### #2 - 2015-02-11 11:17 - Peter Kossek

It seems like no pending effort is calculated.
