

Scrum - Defect #947

some errors occur while I run "rake"

2015-01-27 01:55 - Lin Ye

Status:	New	
Priority:	Normal	
Category:		
Target version:		
Source:	Development	Blocked:
Detected on version:	Scrum v0.9.1	Alone:

Description

I install the plugins, and it works fine.
Later I try to install another plugin, and some error messages occur.
I thought there are some bugs in the db/migrate/*.rb, it try to rename the column name, but it has been already renamed.
So, the system tips can't find the column name.

```
rake redmine:plugins:migrate RAILS_ENV=production --trace

Did you change manually the data base before?, maybe with the patch provided in [#847](#)... if the answer is yes you should undo the modifications manually before installing new version.

Please, don't create a defect before writing a message in forum. Thanks.
