Description When clicking on the SCRUM tab, I want sprints to be sorted by name, but default selected sprint must be the sprint corresponding to the following criteria: - current date between sprint's start and end dates - sprint's end date is the closest one Examples. Three sprints are configured: S1 [20150201 - 20150228] S2 [20150216 - 20150222] S3 [20150301 - 20150331] Current date = 20150219 => Default selected sprint must be S2: - S1 and S2 "surround" current date - S2 has the closest end date (with scrum v0.9.1, default selected sprint is S3, but it has not started yet!)
